

Keck Medicine of USC

STATE-OF-THE-ART MEDICAL CARE IN PASADENA

OPENING SOON – 590 S. Fair Oaks Ave.

Opening in Fall 2025, Keck Medicine of USC's largest and most advanced outpatient location in Pasadena, 590 S. Fair Oaks Ave., will bring Keck Medicine's clinical expertise and world-class services to residents in Pasadena and neighboring communities in the San Gabriel Valley.

As the newest addition to the renowned academic health system, this four-story, 100,000 square-foot, state-of-the-art medical office building will significantly expand Keck Medicine's research-based clinical care.

Patients will have access to the same expert physicians who treat patients at Keck Medical Center of USC, including researchers and doctors from USC Norris Comprehensive Cancer Center, one of the nation's top comprehensive cancer centers designated by the National Cancer Institute; the esteemed USC Cardiac and Vascular Institute; and the nationally recognized USC Orthopaedic Surgery team, the official orthopedic medical services providers for USC Athletics and the LA Kings.

BREAKTHROUGH CANCER TECHNOLOGY

As part of the convenient multidisciplinary cancer services at 590 S. Fair Oaks Ave., including medical oncology, surgical care, imaging and radiotherapy, Keck Medicine will be the first and only university-based academic health system in Southern California to offer biology-guided radiation therapy. This novel technology sends real-time “signals” about the location of cancer cells, helping radiation oncologists track, target and treat cancer cells while minimizing damage to healthy cells.

The therapy recently received breakthrough device designation from the U.S. Food and Drug Administration and is currently approved for certain patients with lung and bone tumors.

Waiting Area

P1-Dropoff

MRI and LINAC

Reception

In addition to the new Pasadena location at 590 S. Fair Oaks Ave., Keck Medicine of USC will continue to serve patients at our 18,000-square-foot location at 625 S. Fair Oaks Ave., with an emphasis on the following clinical services:

- **Digestive & Metabolic Health**
 - Bariatric Medicine & Nutrition
 - Endocrinology
 - Gastroenterology
 - General Hepatology
- **Comprehensive Ear, Nose & Throat Care**
- **Comprehensive Ophthalmology**
- **Infusion**
