

## NEW USC HEPATOLOGY PROGRAM ARCADIA – USC HEALTHCARE CENTER

Our dedicated team of hepatologists provide comprehensive care for all conditions affecting the liver, including viral hepatitis, hepatocellular carcinoma, and cirrhosis and its complications. The USC Liver Transplant Program is one of the largest in California and one of the chief pioneers of living donor liver transplantation in Southern California. Recognized as a leader in innovative care, our team is committed to thoroughly researching and understanding the underlying mechanisms of liver disease.

### KECK MEDICINE OF USC'S LIVER DISEASE PROGRAM

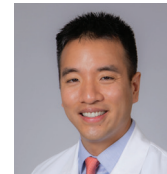

This Liver Disease Program is one of the nation's largest and most comprehensive programs of its kind, providing state-of-the-art treatment for the full range of diseases and complications affecting the liver. Patients and their providers benefit from:

- Keck Medicine hepatologists' unique expertise, including viral hepatitis, fatty liver disease, hepatocellular carcinoma, cirrhosis, liver cancer and liver transplantation. This dedicated effort has afforded us the knowledge to develop increasingly effective treatments for serious conditions.
- A multidisciplinary liver cancer team. Our hepatologists team up with oncologists, surgeons and radiologists to develop the best patient treatment plans.
- Expedited liver transplant evaluations for patients with complications of cirrhosis.
- Access to new treatments via multicenter clinical trials.
- A multidisciplinary fatty liver team. Our team of hepatologists, nutritionists, obesity specialists, endoscopists and surgeons help optimize management of obesity and its complications.

### AREAS OF EXPERTISE

- Abnormal liver tests
- Hepatitis B
- Hepatitis C
- Hepatocellular carcinoma
- Cirrhosis
- Fatty liver
