

SKILLED NURSING FACILITIES

Thank you for trusting your care to Keck Medicine of USC during your hospital stay. Your care team has determined that you would benefit from additional medical care at a skilled nursing facility (SNF).

It is your right as a patient to choose where you receive your post-acute care. Choosing a post-acute care provider can feel overwhelming. Keck Medicine of USC collaborates with a range of post-acute care providers, including SNFs participating in our Post-Acute Care Collaborative (PACC), to support care coordination and quality improvement.

WHAT IS A SKILLED NURSING FACILITY?

Once you're ready to leave the hospital, you have different choices for your care. It's important to know about these options so you and your care team can decide what's best for you.

After being in the hospital, patients may need additional medical, nursing and personal care. A SNF features doctors, nurses, rehabilitation specialists and other medical professionals and activity programs — all to ensure you get the level of care you need.

Nursing homes are facilities for people who need 24-hour care. Most nursing homes provide both short-term and long-term care:

- Short-term care for people who need rehabilitation and nursing care before returning home or to a lower level of care.
- Long-term or custodial care for people who need help with activities of daily living, like bathing, dressing or eating beyond a short-term rehabilitation stay.

Please see back of brochure for list of PACC SNFs and SNFs with Keck Hospital physician coverage.

For more information, talk with a member of your healthcare team or visit [KeckMedicine.org/post-acute-care-services](https://www.KeckMedicine.org/post-acute-care-services)

Providers participate in the Keck Medicine of USC PACC on a voluntary basis with no financial incentives for either party.

You are not required to select a provider from the Keck Medicine of USC PACC. A list of all Medicare-certified organizations in your geographic area of choice, including providers not in the Keck Medicine PACC, can be provided to you.

CMS quality ratings are part of our process in selecting the organizations on this list. When a PACC partner's star rating changes, our team works closely with the partner to create a detailed performance improvement plan. You can find the most recent CMS quality data for all skilled nursing facilities online at:

[medicare.gov/care-compare](https://www.medicare.gov/care-compare)

Please be aware that some insurance companies have contracts with specific providers and facilities, which may affect the post-acute provider you can use. Your insurance plan may require you to choose a facility from their contracted list.

Scan the QR code or go to [KeckMedicine.org/PACC](https://www.KeckMedicine.org/PACC) to see the most recent list of facilities online.
